

botley Bobsleigh

Black Line Following Printables

It's a Botley bobsleigh adventure! It's time to celebrate winter sports, and Botley is getting into the spirit with this free printable black-line-following course shaped like the track used by the world-class athletes in South Korea. Just print it out, connect the pages, and set Botley to black-line-following mode, then watch him go for the gold!

Parents: help your little ones color in the gaps between the track pieces with a black felt-tipped marker to make sure that Botley has a smooth trip along the course.

Go Botley!
